

No. 22,382. Registered at the General Post Office, Sydney, for transmission by post as a Newspaper.

SYDNEY, SATURDAY, OCTOBER 9, 1909.

26 PAGES.

PRICE 1d.

SUMMARY.

Mr. Asquith has had a further prolonged audience with the King at Balmoral.

Butcher's Agency reports that the Imperial arms from Afghanistan via the Persian Gulf has become serious.

The Andros is said to be unsympathetic to India, while his brother, Narasimha, is actively anti-Indian.

The authorities in India, it is reported, are becoming anxious.

It is stated that the Turkish Minister for Foreign Affairs is visiting the East to secure a political and military understanding.

A remarkable reception was accorded the British fleet at the Hudson-Paterson celebrations in New York.

A prohibitive schedule has been found in postmaster's records in the Derogues, South-West France, dating back 20,000 years.

Counterfeit bank of England £5 notes are passing London from Russia, where £25,000 have been cashed.

The Canadian Government reprimanded its Trade Commissioner in Japan for making a commercial morality.

The House of Lords considered the Irish Land Bill in committee.

Several clauses dealing with the constitution of the proposed new board were deleted.

J. E. Rodmond has called to the United Irish League of America that the "Lords are engaged in destroying the Bill."

It is reported that the Nationalists are despondent in need of funds.

The British imports during September increased by £1,458,000, and the exports by £1,718,000.

At the half-yearly meeting of the Bank of Australia, the chairman stated that the prospects of wool and wheat in Australia were excellent.

The Women's Social and Political Union has protested against the suspension of the suffrage franchise in the East.

A naval defence bill will be introduced in the Canadian Parliament in the session opening on November 11.

Nine cruisers and destroyers will be placed on the Atlantic coast, and three on the Pacific coast.

The question whether the vessels should be built in Canada is exciting discussion.

It is reported that a syndicate of British and German cotton-spinners has acquired 10,000 acres in South-West Texas.

The syndicate, it is explained, will divide the area into small holdings for cotton farmers.

Harry Benson, formerly a director of Fifth Avenue Bank, Ltd., has been sentenced to five years for fraud in connection with the bank.

Tasmania is leasing a 35 per cent. loan of £250,000 at £28 10s.

The Canadian Congress delegates left Sydney yesterday for New Zealand.

The delegates gave a farewell message to Australia, acknowledging the hospitality extended to them.

The message concluded: "We hope we shall always remain united in commerce, literature, art, peace, and war."

The reading of the Bill of Government's acceptance Bill was moved in the Senate yesterday.

Senator Milnes said the Government had accepted the Bill, and that the House of Representatives had agreed to it.

The Bill was passed through all its stages, and the House of Representatives was considered in committee.

An amendment to provide for an appointment of a member to the House of Representatives was rejected.

The question of salary was being discussed when the House adjourned.

The whole of the sitting of the House of Representatives was devoted to the debate on the second reading of the Northern Territory Acceptance Bill.

Mr. Piller said on the table of the House a letter sent by Mr. Wade to Mr. Deakin in regard to the Federal Council.

Mr. Wade said he was prepared to submit to the State Parliament without delay a bill in the form of a resolution of territory.

Mr. Robert Best has agreed to defer the introduction of the bill to the standard of defense in the House until January.

It is stated that milk sold in the suburbs is not up to the standard, and that the inspectors are powerless to enforce it.

This state of things is said to be due to the change in the Pure Food Act removing the milk from the jurisdiction of the Food and Drug Board.

The secretary of the Board of Health says: "We are getting the act into working order as fast as possible."

Yesterday was observed at Camden as a day of lamentation and prayer for rain. All business places were closed.

A deputation interviewed the Postmaster-General on the means by which the business of the Pacific cable might be promoted.

Proposals were made to reduce the land and other charges, but no facility was reached.

The meeting of the Government was held to initiate a movement for securing better railway facilities for the carriage of stock.

A deputation was appointed to make representations direct to the Government in respect of approaching the Railway Commissioners.

The Prime Minister was asked in the House of Representatives yesterday if the Government intended to adhere to its proposal to borrow £1,200,000.

Mr. Deakin replied that if the financial assistance was not forthcoming, it would probably not be necessary to take the loan.

The jubilee meeting of the National Rifle Association was opened at the Randwick range yesterday morning.

The conditions were favourable for good shooting. Approximately 2000 individual entries were received, this being a record.

The Irish exhibit in N. S. Wales has been proved to exist on 12 separate farms, including two in North Sydney.

Mr. Perry is having investigations made as to the possibility of sterilizing the potatoes.

The first of the season's crop from the Clarence River were marketed yesterday.

The consignment was of splendid quality, and realized as high as 4 1/2 per cent.

The camping party reported as missing from Boat Harbour, near Cronulla, is safe.

Mr. O. R. Snowball (Liberal) has been elected to the position of Mayor of the City of Sydney, in place of the late Sir Thomas Street.

Details as to the loss of the steamer Ocean Queen on a reef off Makara Island show that the disaster was caused by an accident to the machinery.

The vessel was abandoned, and she eventually ran ashore at 100 fathoms.

All the men have been called out from the Orange Plains copper mines.

The miners at the South Clifton and South Clifton Tunnel collieries are still out on strike.

There is little prospect of the difficulty being solved.

Black sheep has made its appearance among the young huffers in the Wollongong district.

Several dairies report losses of stock.

The New Zealand exports for the past half-year also an increase of £15,322 over the corresponding period of 1908.

Wool has arrived very freely in Sydney during the week by rail, the increase for the season being considerable.

The tone of the Mining market yesterday showed optimism in all sections, especially in the gold and silver and copper fields.

Gold shares were quiet, with values steady, and there was a recovery in Tongkah shares.

Wool was quiet, with values steady, and there was a recovery in Tongkah shares.

FARM AND STATION

OSTRICH FARMING.

In Australia the ostrich has been mainly advanced in ecological gardens and not been prominently before the public, and while most of us know that the ostrich supplies the most charming decorations for studies in military, few know anything of the business of farming the great birds. Occasionally an enthusiast whose real overbalance his knowledge of the game, rushes into it and purchases his experience at considerably above cost. Not long ago a farmer in New South Wales undertook to establish a flock of ostriches by purchasing eggs and hatching these per a broody turkey. He paid £1 a piece for the eggs, but the subsequent results were not encouraging, and the turkey was understood to have been extremely unpleasant about the matter. The fact is, that ostrich farming requires a lot of learning, and only experts in the management of the birds and the treatment of the feathers can hope to be successful. The ostrich farm in Australia is that of Mr. J. Barcroft, at South Head, some four miles from Sydney. On the sandy ridge which overlooks the broad Pacific, Mr. Barcroft has established a large flock of ostriches, the productive birds numbering 74. In this country the ostrich farmer must breed up to the required number of birds, since it is practically impossible to purchase stock. There is a great demand for the birds to new parts of the world, and this has increased since the export from South Africa was prohibited. American buyers are continually making inquiries of Mr. Barcroft, and possibly ostriches may be exported from Australia to America in the near future.

Mating the good birds is often a troublesome business. The ostrich is an amorous as Narcissus, and it elevates its mate by falling deeply in love with one fair lady on the spot. One glance of the big, seemingly impressive eye and the great bird falls a victim to Cupid's dart, and he is constant as the wheel. He has not yet devised means to cure or subdue the flame of his passion, and any attempt to separate him from the lady of his choice will provoke him to fury. Ostrich farming is not a simple matter, but too much of it in an ostrich is apt to induce corrugations on the forehead of the farmer. It is well when a well-feathered bird falls in love with a lady, equally as richly endowed by nature, for then the offspring will also grow the beautiful, broad plumage which is dear to the heart of the farmer, and also to the wearers of magnificent hats and their husbands. The ostrich is a very temperamental bird, and it is not uncommon to find a bird that is not at all amenable to the rule of the farmer, and it is not uncommon to find a bird that is not at all amenable to the rule of the farmer, and it is not uncommon to find a bird that is not at all amenable to the rule of the farmer.

When the birds are mated, they proceed, not to build, but to dig the nest. The husband, as is fitting in these advanced days, does the heaviest part by tearing up the earth with his great toes. By the time the ostrich has two toes only, and not three, as depicted sometimes by artists who sketch on cards for advertisers. The extremely primitive home having been prepared, the good wife proceeds to lay an egg, whereas these men reject, expressed in many fantastic gyrations of great legs and rudimentary wings. She lays from 17 to 20, but larger "clutches" have been known. It is not unusual to find the parental ostrich expressing either alarm or amusement at the serious and tedious to his family, while the farmer, who after all, has to keep the youngsters, welcomes every egg with a joy which is never dimmed by repetition.

The female ostrich sits on the egg during the day, the proud father contentedly taking charge at night. The period of incubation is six weeks, and the young birds are usually sturdy and aggressively hungry when they arrive. They grow very rapidly, and at six weeks old a brood looks very like a small flock of plump turkeys, the heads being the only part of the ostrich that is not up to the grade in the same inquisitive manner, while the coloring is very similar. As the birds grow their value as feather-producers becomes apparent, some being better than others. At seven months old a young ostrich looks right over the head of a man, and at 14 months it yields a lot of feathers. A bird will produce one "plucking" 20 long white feathers, and 15 of the shorter kind, while the rest are medium and small. "Plucking" really means cutting. The feathers are never pulled from the birds at this farm, and the operation is as painless as that of shearing sheep. Naturally the ostrich offers some objection to being handled, but when held the right way the bird stands quietly while he contributes to the decorations of our finest fair.

After the first "plucking" the operation is repeated every seven months. The ostrich is as long as a liver as the swan, and will attain the age of 100 years, so that a well-feathered bird is a substantial asset to the farmer. So far as the feathers are affected, the birds attain maturity much earlier than Australia (that is, South Africa), a feather from a 14 months bird in this country being equal to that from a three years bird in South Africa. Mr. Barcroft has his assistants dress and press the feathers for sale and make bone and other beautiful things. Every feather can be re-dressed again and again, and this is one of the great advantages held by those produced in Australia, as compared with the imported article.

THE WOOL TRADE.

SETTLING DOWN TO BUSINESS.

As was expected on Friday last, a truce was arranged between the Sydney Wool-buyers' and Wool-selling Brokers' Associations, over the dispute as to the tribunal to impose fines on brokers for breaches of the wool-selling regulations. In the first place, the truce was to extend to the Christmas recess, but later negotiations resulted in the truce being declared to extend to the end of the current selling season. By this arrangement the weekly selling series opened on Tuesday last, and continued on the two following days. It is original plan had been to suspend the series for the week ending September 27, and the series was to be resumed on October 4. The truce was observed on September 27 and continued on the two following days, adjourning on Wednesday in observance of the public holiday being held on Saturday, October 2. The dispute being maintained throughout that week, the possibility of carrying out the original programme, either in Sydney or Brisbane, consequently, the sales had to be picked up as at the time of the settlement of the dispute. In the ordinary course of events, the sales would have commenced a week earlier than that used in Sydney. The extraordinary developments, however, put the actual commencement of the wool-selling season, last year. The endeavour and tendency are for the selling season to be extended, so that supplies shall not be placed on the market in excessive quantities. Experience has shown that the buyers can value about 450 lots (approximating 500 to 600 bales) in Sydney per day. That is, where all the facilities are to be had for the weekly routine of business, the basis of operations as to quantities, and all friction practically over, buyers and brokers settled down to business on Tuesday last.

STRONG DEMAND FOR SUPER WOOLS.

On the three selling days this week 12 catalogues were submitted, aggregating 31,315 bales, of which 25,300 bales were cleared at auction. The wool catalogues were generally of a very attractive character, and included a number of clips that had previously been sent on to London for selection. Buyers were present in full force. All sections of the trade competed freely, and at times very keenly, for all super wools. Orders on American accounts were again, as last season, quite a feature of the sales; and led to some prices for super wools both combred and merino. There is no elevation in the prices of the previous season, the quality of the current season's clip. Upwards of 250,000 bales have been received into date, and the wool opened up continues to show that the clip is well-grown, of good quality, less dust and burr, but rather more rolly than usual, altogether, one of the best clips ever handled in the Sydney market. With attractive offers, buyers were in plenty of orders for best wools, and trade in a healthy state abroad, made the market a most animated one. The clip was compared

CURRENT SYDNEY QUOTATIONS.

Rates current for the principal descriptions of staple may be quoted as follows:—

were lower. Fine comebacks and crossbreds
 met a strong market, also bulky secondaries.
 The operations on German account were ex-
 ceptionally good. The American account for
 merino, and keen on American account for
 were grown, free, light merino and cross-
 bred.

THE CHURCHES.

During the week Archbishop Guthrie, V.A., has presided at meetings of the Archdiocesan Council, the Cathedral Chapter, the Archdiocesan Synod, the Archdiocesan Board of Christian Education, the Board of Christian Missions, the Board of Christian Social Service, the Board of Christian Literature, and the Board of Christian Art.

Rev. H. S. Woolcombe, who has been sent to Australia by the Church of England Mission Society to establish branches in the Commonwealth, has just completed a successful mission in Queensland. He has been in the field for some time, and has been successful in establishing branches in several places.

Preparations are being made for Mr. Woolcombe's visit to Sydney. He will open his mission in the city, and will speak in the city. Lord Chalmers will preside at a mass meeting of churchmen while Mr. Woolcombe is here.

Consideration is being given to the question as to what steps shall be taken to erect a memorial to the late Rev. Dr. W. G. Murphy, in recognition of the valuable work done by him as first pastor of the parish. It will probably be decided to complete the church, in which Dr. Murphy was so deeply interested.

Last Sunday an address was presented to Cardinal Moran by the Roman Catholic laity. It followed his highness on his return from his residence at the Archbishop of Sydney, and referred to that period as one of magnificent achievement. Numerous religious, educational, and charitable institutions have been founded. One paragraph of the address runs: "The year 1907 was a year of intense activity. The Cardinal, in the midst of a strenuous life, adds to the burdens of the great pastoral office, the burden of the great Cathedral, we can only assure you of our practical sympathy and continued support. We trust that you may long be spared, health and strength, to continue your splendid service to the Church in Australia."

A social concert in connection with the Roman Catholic Congress session held at the Sacred Heart Convent, Rose Bay, was the presentation of a magnificent and formidable-looking shamrock, with which was a substantial sum in sovereigns. This represented the people's blessing on the Congress and the Cathedral Building Fund. It was at this session that the Cardinal read a cable beaming the Pope's blessing on the Congress and its members.

The Rev. W. G. Taylor, superintendent of the Methodist Mission, has concluded a very successful mission tour in the Manilla Bay district. He returned to Sydney yesterday. A united mission has been held in the West Wallasey district, where F. J. Stephens, Sydney, being one of the principal workers. It was a highly successful effort.

The Rev. Dr. Brown, of the Methodist Foreign Mission, received a very hearty welcome on Wednesday last from the Methodist Board of Missions, on his return from England. He gave a most interesting account of his making special reference to his conduct of the business which had been entrusted to him.

On Wednesday evening, October 6, a reception was given in the Rydalmere Presbyterian Church to the Rev. Dr. Brown, who has been translated from Hillston to Rydalmere. The building was filled. The Rev. Mr. Walker, Methodist minister, gave a most interesting speech on behalf of the Methodist in the town, and welcomed Dr. Brown to the district. Mr. Sands made a suitable reply.

On Sunday evening last, during the service in the Congregational Church at Peterborough, a memorial tablet to the late Mr. E. W. Young, one of the first deacons of the church, was unveiled by Dr. S. H. Lewis, in the presence of a large congregation.

The sixteenth anniversary of the Baptist Church, Odeleville, Temple, Elizabeth-street, was celebrated by a public meeting, which was largely attended. Addresses were delivered by the chairman (Mr. A. R. Freeman), the Rev. Mr. Walker, Messrs. B. King, Anderson, F. Ralph, and F. Meade. The treasurer (Mr. H. Beverley) in his statement, showed the financial position of the church in a most satisfactory manner. Several anthems were very creditably rendered by the choir, under the leadership of Mr. Sands.

The Seventh Day Adventists have secured the use of Glebe Jubilee Park in which to hold their annual camp-meeting and conference. The daily programme begins with a devotional meeting at 6 a.m. Between breakfast and luncheon, the members of the church, as well as the delegates in discussing the business of the denomination, there are special meetings for the young people and the children, of whom there is a large number on the ground. In the afternoon, and evening, evangelistic meetings are conducted by the leading ministers of the denomination, who are in attendance.

Speaking at the opening of the Goulburn Diocesan Synod, the Rev. Mr. Sands, Moderator, seems to me unreasonable to suppose that in a diocese, of which nearly half the population are members of the Church of England, there should be any difficulty or delay in securing by respectable regular means the income necessary to support the work of the church. I am compelled to draw your attention to this. There are still some parties who are not willing to do their duty. Some of these are of a very unworthy character. My whole aim is to secure for the ministry of God's Word and Sacraments as public deacons, and as such, to be able to do their duty. I am sure that the churchmen into grateful response that such means are necessary. Must the ministry of Christ depend for its support on the generosity of a few?

The Presbyterian congregation of Pyrmont and Ultimo has given notice of the settlement will take place in November.

The Right Rev. Geo. Keith, Moderator of the Diocese of Sydney, is now in Queensland. He is visiting the charges of Jerilderie and Narrandera on his way home from the Commonwealth Assembly in Melbourne. Mr. Keith returns to Sydney on Tuesday next.

Miss Heath, Presbyterian Women's Missionary Association, is now in Queensland. She is on a mission tour in the Monaro district.

The Rev. S. O. Crawford, M.A., Presbyterian minister of Oatley, is recovering from his recent illness, and is now in Queensland. He expects to return to Oatley in a few days.

The Presbyterian congregation at Mudgee has given a call to the Rev. T. J. Curtis. He was received by the General Assembly of Australia during his tour in the Monaro district. It is expected that the induction will be carried out by the Presbytery of Bathurst during the month of November.

Information has been received that the Rev. R. A. Redmond, Presbyterian minister of Laura and Westworth Falls, called from the world on the 1st inst. He was in Sydney about the middle of the month next.

Rev. Robert Kay, M.A., Presbyterian minister of Gunnedah, is now in Sydney about the middle of the month next. He is visiting Sydney on private business.

The Rev. George Campbell has completed 20 years as Minister of the Burwood Congregational Church, and has announced to the church his intention to retire from the pastorate on December 31. On Wednesday last a social meeting of members of the church and congregation was held to mark the completion of his 20 years' service, and to welcome Mr. H. W. Burrage, who has been appointed assistant in charge of the church. Mr. Campbell was warmly welcomed, and his services were highly appreciated. Regret was expressed at Mr. Campbell's decision, but it was recognized that he had given his best service to the church, and his resignation was well received. The churchmen will miss his presence, but they will welcome Mr. Burrage, who has been appointed assistant in charge of the church.

The death of Mr. Philip Hittell Henry in the Sydney Hospital on September 20, severed a link with the past. Mr. Henry was 70 years of age, and was a son of the Rev. Wm. Henry, who lived in the city for 40 years. Mr. Henry was a native of Wales, and was a member of the church. He was a very successful business man, and was a member of the church. He was a very successful business man, and was a member of the church. He was a very successful business man, and was a member of the church.

The fact that Chamberlain's Cough Remedy is pleasant to take has made it a favourite with mothers everywhere.

SOCIAL.

Already many of our visitors have left for their homes in the Southern or Northern States, and our country friends are returning by day and night. The week has been a very busy one, and the week has been a very busy one. The week has been a very busy one, and the week has been a very busy one. The week has been a very busy one, and the week has been a very busy one.

Miss Marie Nettle entertained a large party of friends at afternoon tea in the winter garden at the Australian Club on Tuesday last. She took the opportunity of wishing them good-bye before leaving for her concert tour in Western Australia, where she is to appear at the end of this month. The hostess wore a dress of pale grey with white and silver embroidery, and a pale grey hat with a wide brim and a large bow. The guests were very numerous, and the evening was very enjoyable.

250—FREE LOTS—250—

YOSEMITE PARK ESTATE,

KATOOMBA,

THE BLUE MOUNTAINS LAND COMPANY

Have Recently Purchased this Beautiful Property, which has been Carefully Chosen as being Pre-eminently One of the Most Magnificent Estates on the Blue Mountains.

The Estate immediately adjoins the town of Katoomba, which is the Mecca of all travellers and tourists for viewing the transcending magnificence of the Mountains, and quite the most important of all the Mountain Resorts.

Katoomba has a resident population of over 3000, and its popularity as a Summer Resort is evinced by the fact that during the season the residents number over 10,000.

After being locked up for a very great number of years, we have been successful in purchasing this Estate of over 600 acres in a district where the value of land is now increasing by leaps and bounds. The position of this Estate is such that here in particular a rise in value must inevitably take place, as it immediately adjoins the Municipality of Katoomba. The Shire rate on these Lots will not exceed 2 6 per annum.

The Estate has an altitude of 3300 feet above sea level, and is within easy walking distance of the Railway Station.

There is on the Estate an abundant supply of cool, refreshing water from innumerable springs and several running creeks, forming sparkling cascades and waterfalls, attributes which have already gone to make the Estate the happy hunting-ground of Tourists and Pleasure-seekers.

The whole of the streams and creeks which intersect the Property converge on the northern boundary, and about a quarter-mile distant the stream takes a tremendous leap into a magnificent gorge. This is one of the many sights of the district, and known as Minni-ha-ha Falls.

In addition to the many charming walks and beauty spots which abound on the Estate itself, some thousands of acres of magnificent country reserved by the Government immediately adjoin Yosemite Park. Here the character of the country abruptly changes, and one may roam at will, and with perfect freedom enjoy to the full the glorious scenery, and explore the most wonderful gorges and exquisite fern gullies.

YOSEMITE PARK ESTATE is admitted by Local Residents and Real Estate Experts to possess all the charm of scenic grandeur, combined with the rare and exceptional characteristics, to be found in the Mountains, of level and gently-undulating land, which is eminently adapted for subdivision and building, all roads on the property being practically level.

We have reserved for all time and for the free use of all Lot-owners in YOSEMITE PARK ESTATE, certain portions of the Property for the purpose of Golf Links, Tennis, and Recreation Grounds.

We feel assured that these most unusual advantages will prove of inestimable value to the Residents, and will be additional proof that our intention is to do all that is possible to make YOSEMITE PARK the Most Popular Holiday Resort in the Blue Mountains. From the Investors' point of view it will become at once apparent that an opportunity here presents itself of buying in an Estate from a live vendor, who is doing everything possible to further the interests of the Estate, which is infinitely preferable to buying promiscuously in scattered districts.

Ridiculous as it may seem, we are giving away Two Hundred and Fifty Lots Absolutely Free, merely as an advertisement, thus probably constituting the most remarkable offer which has ever been made. No one person will be allowed to take up more than five lots. These Free Lots will be alternate, the Company reserving intervening Lots for Sale.

The fame of the Blue Mountains is so widespread and so well known that it is perhaps hardly necessary to here enlarge upon their transcending glory. These Mountains have become, as is only natural, the health and pleasure resort of the people of this State. The greatly-reduced week-end, holiday excursion, and season tickets, combined with the splendid and frequent train service, have an ever-increasing tendency to further popularise the Mountains with their cool sequestered glens and invigorating air in preference to the enervating, hot, glaring sea and sand.

A BEAUTIFUL SUMMER RESORT,

And One of the Finest Estates in the Heart of the Blue Mountains.

The Land in Yosemite Park is Delightfully Undulating and Park-like. We Guarantee Every Lot to be a Splendid Building Site.

ABSOLUTELY NO RESTRICTION AS TO BUILDING.

In order to Quickly and Extensively Advertise this Magnificent Estate, the Blue Mountains Land Co. have decided to

GIVE AWAY 250 LOTS ABSOLUTELY FREE.

Cut this out and forward without delay.

APPLICATION FORM.

THE BLUE MOUNTAINS LAND CO.,
Challis House,
—SYDNEY.

IN THE HEART OF MOUNTAIN SPLENDOR.

The whole journey from Sydney is one of never-failing delight. Along the Railway, and by the excellent roads are strung, as pearls upon a golden thread, a series of the most exquisite pictures from Nature's easel, each curve disclosing to the wondering traveller's view some fresh scene of Sylvan beauty. The hills are ever swept by cool, refreshing breezes. The alluring fascination of the Mountains is irresistible, and there are few people who have not at least spent a holiday at one resort or another.

Not, however, until one reaches Katoomba is the full glory of the Mountains in all their rugged grandeur to be seen. Here one is in the heart of Mountain Splendour. The sublime majesty, beauty, and fascination of the Blue Mountain scenery hereabouts is indescribable, and its variety infinite. On the one hand, are inspiring chasms, mighty peaks, and towering cliffs; and, on the other hand, fairy glens with sparkling and iridescent waterfalls and rivulets embowered amidst graceful fern and simple floweret. Such a delightful combination of the wonders of Nature at once in her wildest and most peaceful moods as is unsurpassed anywhere in the world. In the midst of this enchanting environment lies Katoomba, the City of the Hills. The town has thus become the recognised headquarters of Tourists and Holiday-makers from all parts of the world who wish to enjoy to the full all that the Blue Mountains have to offer. This fact is plainly evinced by the size and importance of the Town with its business streets, handsome stores and shops, Post and Telegraph Office, Telephone Bureau, Banks, and other Commercial Institutions, and numerous and palatial Boarding Establishments.

In addition, Katoomba possesses its own Water and Gas supply, also Sewerage System.

With all these more recent advantages it is not difficult to foresee that the district must inevitably grow more rapidly even than hitherto. Indeed, this is already apparent from the activity of building operations now in progress.

The fortunate investors who a few years ago probably secured land for a mere song in this progressive district are now reaping a rich harvest.

The opening up of YOSEMITE PARK will afford the finest opportunity ever offered to secure safe and lucrative investments in Real Estate to-day at prices so low as to be unprecedented. Meanwhile, we are Giving Away Two Hundred and Fifty Lots.

HOW TO GET ONE OF THESE FREE LOTS

Every Lot in this offer will be a Quarter of an Acre or thereabouts. Every Lot will be properly surveyed, pegged, and numbered, and will have a frontage to a road of not less than 66 feet in width. All you have to do is to send the nominal sum of 33 6 to partly cover the cost of survey, advertising, and other expenses. There is nothing further to pay us for the Lot. It will be absolutely your own Freehold.

The Memorandum of Transfer will be prepared and signed by the Vendor Free of Charge to you.

The Land will be transferred as soon as possible to all those who take advantage of this offer.

Recollect, 33 6 is all you have to pay us for each Lot. The Company reserves the right of limiting any one person to five lots only.

The Two Hundred and Fifty Lots which we give away, being alternate, are in every way as good as those retained for Sale by the Company. These adjoining Lots are for Sale, and may be purchased at once; also Blocks of from 5 to 10 acres. Prices on application. Act at once if you wish to secure one or more of these Lots. Remember, no more than Five Free Lots to any one person.

One-half the number of Free Lots will be reserved to give people living out of Sydney time to apply by letter, thus giving a fair chance to all to participate in our great offer.

Remit direct by cheque, crossed "The Commercial Bank of Australia," Postal Note, Money Order, or any other safe way to ensure delivery. All money received too late to secure one of these Free Lots will be refunded at once.

Remember, 33 6 gives you Absolute Ownership of the Freehold Lot, and that this is all you have to pay us.

The Solicitor to the Estate is Mr. J. H. ROBISON, Vickers-chambers, 82 Pitt-street, Sydney.

3 rooms, kit., land, 12s 6d week.
